Board of Directors

Milan Puskar Foundation

Dear Members of the Board:

Harmony for Hope, Inc. respectfully requests **\$10,000** from the Milan Puskar Foundation to support the **Mount Hope Community Champion Leadership Pilot**, a six-month community leadership and stewardship training program based in Mount Hope, Fayette County, West Virginia.

The pilot will provide approximately **six free, four-hour training sessions**, with 10–15 participant seats per session. Participants may come from **Fayette, Raleigh, Mercer, and Nicholas counties**, allowing the program to serve communities across the New River Gorge and surrounding southern West Virginia region.

Community Champion training will help participants build practical skills in community leadership, Appalachian heritage, local-resource awareness, information literacy, accessibility, privacy, responsible information practices, community engagement, and structured reporting. Mount Hope and the Mount Hope Historic Walking Trail will serve as part of the learning environment, allowing participants to connect classroom instruction with real places, local resources, and community needs.

The requested funds will support program coordination, curriculum and reusable training materials, facilitation, accessible meeting space, participant materials, transportation assistance, accessibility supports, field-learning supplies, evaluation, insurance and compliance, and reasonable implementation costs. Participation will be offered without tuition so that cost does not become a barrier to community involvement.

Harmony for Hope is a West Virginia 501(c)(3) nonprofit organization whose mission is “**Uniting West Virginia with music, art, and Appalachian heritage through technology.**” Our work includes community music, heritage preservation and interpretation, volunteer service, local outreach, arts and cultural programming, and development of new community leadership and technology initiatives.

This pilot will allow Harmony for Hope to move the Community Champion model from program development into real-world community practice, measure what works, improve the curriculum, and build a reusable foundation for future West Virginia cohorts.

Thank you for considering Harmony for Hope’s request and for your investment in programs that improve the quality of life of West Virginians.

Grace & Peace,

Carrie Ann Kidd, M.A.
